## Work Experience

### Cerner

SOFTWARE ENGINEERING INTERN

Kansas City, Missouri

May – Aug. 2017

### Brand New Box

SOFTWARE ENGINEERING INTERN

Lawrence, Kansas

Jan. – May 2017

- Worked on developing Ruby on Rails applications from scratch and deploying to Heroku
- Built web prototypes from mock-ups using Bootstrap and Sass
- Implemented a Leaflet plugin that adds support for drawing polygons with holes

### Paylt

SOFTWARE ENGINEERING INTERN

Kansas City, Missouri

Dec. 2015 – Dec. 2016

- Involved in the development of six different mobile apps written for both iOS and Android platforms using React-Native
- Created an internal service tool used to process customer transactions and deliver statements to their email and mobile app
- Developed a credit card and document scanning component based on Card.io to allow fast and easy upload from the app
- Developed a logging manager for consolidating error/debugging reports from various client-side services into a single service
- Assisted in the migration of old Paylt apps from AngularJS to React-Native

### KU Information Technology

STUDENT WEB DEVELOPER

Lawrence, Kansas

Aug. – Dec. 2015

- Created Drupal websites for various faculty members, departments, and student organizations
- Provided Tier 1 support to students, faculty and staff through ServiceNow online ticketing system
